2006

Taylor's Eye Witness were presented with a Gold Award at the iF (International Forum) Design Awards ceremony in Hannover for their beautiful IF4000 series of Kitchen Knives.

Known as the Design Oscars the competition now in its 50th year attracted over 1900 entries from all over the world. The jury of 20 leaders from the world of design selected only 50 Gold Award Winners. Other Gold Award winners included Apple, Sony, Volkswagen, Braun and Toshiba. Taylor's Eye Witness were the only Gold Award winners with a product both designed and made in Britain.

the IF 4000 range

The IF4000 series was designed by Sam Hecht and Ippei Matsumoto of Industrial Facility in London and features precision forged blades and a unique cool to the touch unbreakable ceramic feel handle.

The knives are now available with either Black or White handles.

 Made in Sheffield.
